## Minimum Account Balance and How We Determine the Interest Rate

There is no minimum account balance required to open a health savings account or to obtain the annual percentage yield disclosed. We use the daily balance method to calculate the interest on your account. The daily balance method applies a daily periodic rate to the principal in the account each day. Interest is compounded monthly and credited monthly. Interest begins to accrue no later than the business day that we receive credit for the deposit of non-cash items (for example, checks). The interest rate and annual percentage yield (APY) is based on the balance in your account. The interest rate and annual percentage yield available on your account is as follows, effective as of November 1, 2016.

Daily Balance	Interest Rate	APY
\$25,000 or more	0.45%	0.45%
\$15,000.00 - \$24,999.99	0.35%	0.35%
\$10,000.00 - \$14,999.99	0.25%	0.25%
\$5,000.00 - \$9,999.99	0.15%	0.15%
\$2,500.00 - \$4,999.99	0.10%	0.10%
Less Than \$2,500	0.05%	0.05%

This interest rate is subject to change at our discretion at any time. Fees may reduce your earnings.

<sup>1</sup> The Balance Waiver Amount reflects the minimum amount of funds that must be maintained in the HSA Bank health savings account each day of the month to prevent the Monthly Account Maintenance Fee and the Monthly Investment fee from being charged. Only the funds in the HSA Bank health savings bank account are included in the balance waiver amount for both the Monthly Account Maintenance Fee and the HSA Investment Service Fee.

<sup>2</sup> Investment accounts are not FDIC insured and they are not bank guaranteed. Investment accounts are not a deposit account, or an obligation of HSA Bank, and they may lose value. They are not guaranteed by any federal government agency.

<sup>3</sup> The bank/ATM you use may charge you their own fee. HSA Bank customers using a Webster Bank ATM will not be charged a fee.

<sup>4</sup> Distributions from your Health Savings Account presented in the form of checks, debit card payments, ACH withdrawals, or other electronic means, will be either paid or returned if there are insufficient funds in your account to cover the amount of the withdrawal, and you will be charged a Non-Sufficient Funds (NSF) fee.
