HSA Bank Completes Additional Employer Portal Enhancements

WATERBURY, Conn., November 1, 2010 – HSA Bank announced today it has completed additional enhancements to its online Employer Administration Area that will make the website easier to use and more intuitive for employers to find information for their Health Savings Account (HSA) program.

“The enhancements made to our Employer Administration Area website last year focused on the capabilities of our Group Online Contribution system,” said Kirk Hoewisch, president of HSA Bank. “In our latest enhancements, we concentrated on making the website even easier for our employer business partners to register, use and manage their HSA.”

Employers now have the capability of registering with HSA Bank through a completely online set-up process. By registering with HSA Bank, employers gain access to the Employer Administration Area website and can open employee HSAs with HSA Bank. And to help employers open accounts, HSA Bank added the capability to upload enrollment files directly through the Employer Administration Area website.

Additionally, HSA Bank focused on the website’s navigation to make it more intuitive from the main menu and the submenu on each page. HSA Bank updated the demonstration videos to reflect the improvements to the website and provide step-by-step guidance for all the website’s features. HSA Bank also provides the user with additional information about features and processes on the website’s pages, which are identified by a question mark icon.

“Employers have provided positive feedback about our Employer Administration Area in the past, so we are confident that these changes will make their experience with HSA Bank even better,” added Hoewisch. “And we are going to continue adding features and capabilities that our business partners need to make managing their HSA program easier and more convenient.”

HSA Bank® is a division of Webster Bank, N.A. Member FDIC, the wholly-owned subsidiary of Webster Financial Corporation (NYSE: WBS).
